Professional Summary

Software QA & Testing Engineer dedicated to ensuring software quality through meticulous testing and analysis. Proficient in designing and executing comprehensive test plans to identify and resolve issues effectively. Experienced in collaborating with cross-functional teams to enhance software development processes and maintain system efficiency. Skilled in documenting test cases and results to provide clear insights into software performance. Committed to implementing automated testing solutions to streamline workflows and improve product reliability. Passionate about fostering a culture of quality and accountability in software development.

Core Skills

- Software QA & Testing: Test Planning, Test Implementation, Quality Assurance, Documentation
 - Automation: Automated Testing Tools, CI/CD, Agile Methodologies, Regression Testing
 - Technical Skills: Python, Test Case Development, Issue Tracking, Problem Solving
 - Collaboration: Cross-Functional Teamwork, Communication, Detail-Oriented, Multi-Tasking
-

Experience

Kiran Engineering Works - Software QA & Testing Engineer

Sep 2017 - Present · Chhatrapati Sambhajinagar, India (formerly Aurangabad)

- Designed and executed test plans for software applications, enhancing quality assurance processes.
- Implemented automated testing frameworks, reducing manual testing time by 40%.
- Collaborated with developers to identify and resolve software defects, improving product reliability by 30%.
- Developed detailed documentation for test cases and results, ensuring clarity in testing outcomes.
- Conducted regression testing to maintain software performance, achieving a 95% pass rate on releases.
- Participated in Agile ceremonies, contributing to continuous improvement in the software development lifecycle.
- Analyzed testing results and reported issues, facilitating timely resolution and enhancing system efficiency.

Projects

Automated Testing Framework

- Developed a comprehensive automated testing suite, increasing test coverage by 50%.
- Reduced testing cycle time by 35%, enabling faster release of software updates.

Quality Assurance Documentation

- Created and maintained detailed test case documentation, improving team alignment and knowledge sharing.
- Enhanced issue tracking processes, leading to a 25% reduction in unresolved defects.

LTI - Larsen & Toubro Infotech Ltd. - Software Engineer

Apr 2015 - Jul 2017 · Pune, India

- Assisted in development and maintenance of enterprise applications.
 - Worked with Python for scripting tasks and building/supporting REST APIs.
 - Contributed to testing, debugging, and deployment processes.
 - Gained strong exposure to Agile workflows and SDLC practices.
-

Education

- B.E. Computer Science Engineering - PESCOE, Aurangabad (First Class with Distinction, 2010-2014)
