

Parmeet Singh Granthi

+91 7420004161 | parmeet.singh@parmeetsingh.com

Professional Summary

Data Scientist with a focus on developing enterprise-grade AI solutions that drive significant business value. Proven expertise in building predictive models and AI algorithms that integrate seamlessly into client environments. Skilled in conducting proof-of-concept trials and advising clients on success criteria for AI implementation. Experienced in solving complex data science challenges through end-to-end AI solutions, from data preparation to visualization. Committed to delivering impactful training programs that enhance team performance and align with strategic goals. Adept at collaborating with cross-functional teams to ensure successful AI asset governance and deployment. Passionate about fostering a culture of continuous learning and ethical AI practices within organizations. Dedicated to translating data insights into actionable strategies that meet business needs and drive growth.

Core Skills

- AI Solutions: Predictive Modeling, AI Algorithms, Data Integration, Proof-of-Concept Trials
- Data Science: Problem Framing, Data Preparation, Model Deployment, Visualization
- Collaboration: Cross-Functional Teams, Client Engagement, Training Programs, Governance
- Technical Expertise: Python, Machine Learning, Statistical Analysis, Cloud Platforms
- Project Management: Agile Methodologies, SDLC, Performance Metrics, Continuous Improvement

Experience

Kiran Engineering Works-Data Scientist

Sep 2017-Present · Chhatrapati Sambhajinagar, India (formerly Aurangabad)

- Developed enterprise AI solutions that improved operational efficiency by 40% across various sectors.
- Built predictive models that reduced downtime by 30%, enhancing overall system reliability and performance.
- Conducted training sessions for end users, increasing adoption of AI tools by 50% within the organization.
- Integrated AI algorithms into client systems, resulting in a 60% improvement in data-driven decision-making.
- Collaborated with sales and account teams to align AI solutions with client goals, boosting satisfaction rates by 25%.
- Executed proof-of-concept trials that demonstrated AI capabilities, leading to a 35% increase in project approvals.
- Provided ongoing support and expertise to clients, ensuring successful implementation and operationalization of AI solutions.

LTI-Larsen & Toubro Infotech Ltd. - Software Engineer

Apr 2015-Jul 2017 · Pune, India

- Assisted in development and maintenance of enterprise applications.
- Worked with Python for scripting tasks and building/supporting REST APIs.
- Contributed to testing, debugging, and deployment processes.
- Gained strong exposure to Agile workflows and SDLC practices.

Projects

AI Implementation Strategy

- Developed a comprehensive strategy for deploying AI solutions across client operations.
- Achieved a 30% reduction in implementation time through streamlined processes and training.

Predictive Analytics Dashboard

- Created a dashboard that visualizes key performance metrics for client operations.
- Enhanced decision-making speed by 40% through real-time data insights and analytics.

Client Training Program

- Designed and delivered training sessions focused on AI tools and best practices.
- Increased user engagement and tool adoption by 50% within the first quarter.

Education

- B.E. Computer Science Engineering-PESCOE, Aurangabad (First Class with Distinction, 2010-2014)
