Professional Summary

Dynamic Engineering Manager with a strong focus on building high-performance teams and scalable systems. Proven track record in leading engineering initiatives that drive operational excellence and innovation. Expertise in mentoring engineering leads, fostering collaboration, and implementing effective workflows. Committed to delivering impactful solutions that enhance platform stability, scalability, and user experience.

Core Skills

- Leadership & Strategy: Team Mentorship, Engineering Strategy, Cross-Functional Collaboration
 - Operational Excellence: Process Optimization, Performance Metrics, Reliability Engineering
 - Technical Expertise: Distributed Systems, Cloud Infrastructure, Edge Computing, Security
 - Innovation & Tools: Agile Methodologies, CI/CD, DevOps Practices, Data-Driven Decision Making
 - Communication: Technical Writing, Stakeholder Engagement, User-Centric Design
-

Experience

Kiran Engineering Works ? Senior Engineering Manager

Sep 2017 ? Present · Chhatrapati Sambhajinagar, India (formerly Aurangabad)

- Directed engineering strategy, enhancing team productivity by 40% through streamlined processes.
- Mentored engineering leads, resulting in a 30% improvement in team performance and engagement.
- Scaled engineering operations, optimizing workflows that supported a 50% increase in project delivery speed.
- Championed innovative solutions, integrating new technologies that improved system reliability by 25%.
- Led cross-functional teams to tackle complex technical challenges, enhancing platform stability by 35%.
- Fostered a data-driven culture, embedding analytics into practices that improved decision-making efficiency by 20%.
- Implemented operational excellence initiatives, raising engineering quality standards and reducing errors by 15%.
- Drove the adoption of best practices in cloud infrastructure, achieving 99.9% uptime across services.

LTI ? Larsen & Toubro Infotech Ltd. ? Software Engineer

Apr 2015 ? Jul 2017 · Pune, India

- Contributed to the development of scalable enterprise applications, improving performance by 20%.
 - Developed and maintained REST APIs, enhancing system integration and reducing response times by 30%.
 - Participated in testing and deployment processes, achieving a 95% success rate on first deployments.
 - Gained strong exposure to Agile workflows and SDLC practices, contributing to a 15% increase in team velocity.
-

Education

- B.E. Computer Science Engineering ? PESCOE, Aurangabad (First Class with Distinction, 2010?2014)
