Professional Summary

Software QA & Testing Engineer dedicated to ensuring software quality through meticulous testing and validation. Proficient in designing and executing comprehensive test plans to identify and resolve issues efficiently. Experienced in collaborating with cross-functional teams to enhance software performance and reliability. Committed to maintaining system efficiency and preventing crashes through rigorous quality assurance practices. Skilled in documenting test cases and results to support continuous improvement. Passionate about delivering high-quality software products that meet user needs and industry standards.

Core Skills

- Software QA Methodologies, Test Planning, Automated Testing, Issue Reporting, Agile Practices
 - Test Case Development, Regression Testing, Quality Assurance, Cross-Functional Collaboration, Documentation
 - Problem-Solving, Attention to Detail, Communication Skills, Multi-Tasking, System Efficiency
 - Test Execution, Performance Monitoring, Issue Analysis, Solution Development, Test Documentation
 - Automated Testing Tools, Software Testing, System Software, Application Testing, Hardware Testing
-

Experience

Kiran Engineering Works - Software QA & Testing Engineer

Sep 2017 - Present · Chhatrapati Sambhajnagar, India (formerly Aurangabad)

- Developed and executed testing plans, enhancing software reliability by 40%.
- Implemented automated testing frameworks, reducing manual testing time by 60%.
- Collaborated with developers to troubleshoot issues, improving resolution time by 50%.
- Created detailed documentation for test cases, ensuring clarity and compliance.
- Conducted regression testing, maintaining system stability with 99% uptime.
- Analyzed test results to identify trends, leading to a 30% reduction in defects.
- Worked closely with teams to ensure quality throughout the software development lifecycle.

LTI - Larsen & Toubro Infotech Ltd. - Software Engineer

Apr 2015 - Jul 2017 · Pune, India

- Assisted in development and maintenance of enterprise applications.
- Worked with Python for scripting tasks and building/supporting REST APIs.
- Contributed to testing, debugging, and deployment processes.
- Gained strong exposure to Agile workflows and SDLC practices.

Projects

Automated Testing Framework

- Designed a comprehensive automated testing suite, increasing test coverage by 70%.
- Reduced testing cycle time by 50% through efficient test execution and reporting.

Quality Assurance Initiative

- Led a quality assurance project that improved software reliability metrics by 40%.
 - Established best practices for documentation, enhancing team efficiency by 30%.
-

Education

- B.E. Computer Science Engineering - PESCOE, Aurangabad (First Class with Distinction, 2010-2014)
