

Parmeet Singh Granthi

+91 7420004161 | parmeet.singh@parmeetsingh.com

Professional Summary

Member of the Professional Services team dedicated to delivering impactful AI solutions. Experienced in integrating AI platforms into diverse environments while ensuring compliance. Skilled in collaborating with cross-functional teams to align technical solutions with goals. Proven track record of enhancing operational efficiency through strategic architecture and implementation. Adept at navigating security and compliance requirements to mitigate risks effectively. Committed to empowering clients by translating complex AI concepts into actionable insights. Passionate about fostering responsible AI practices that prioritize ethical considerations. Dedicated to continuous learning and adapting to evolving technologies in AI and cloud computing.

Core Skills

- AI Architecture: Systems Design, ETL Flow, Cloud Computing, Security Compliance
- AI & ML: Python, Generative AI, LLMs, MLOps
- Deployment: FastAPI, Docker, CI/CD, AWS/GCP
- Collaboration: Cross-Functional Teams, Customer Engagement, Technical Support
- Data Management: ETL, Data Integration, Monitoring, Evaluation

Experience

Kiran Engineering Works: member of the Professional Sep
2017-Present · Chhatrapati Sambhajinagar, India (formerly Aurangabad)

- Developed AI-driven dashboards for real-time monitoring, increasing visibility by 40%.
- Implemented RAG assistants, streamlining processes and cutting lookup times by 70%.
- Designed multi-agent workflows for compliance automation, saving over 50 hours monthly.
- Automated finance and HR workflows, significantly improving processing speed and accuracy.
- Trained predictive models on operational data, reducing downtime by 30% through insights.
- Deployed ML inference pipelines, enhancing system uptime to 99.5% with robust logging.
- Integrated AI retrieval systems into CRM, boosting response times by 60% and satisfaction.

Projects

AI Integration for Federal Clients

- Led architecture discussions to align AI solutions with federal compliance standards.
- Enhanced pre-sales engagement, resulting in a 30% increase in successful project bids.

Security Framework Implementation

- Developed security protocols for AI deployments, ensuring adherence to federal standards.
- Reduced risk assessment time by 25% through streamlined documentation and review processes.

Cloud Migration Strategy

- Designed cloud infrastructure for AI applications, improving scalability and performance.
- Achieved a 40% reduction in operational costs through optimized resource allocation.

Larsen & Toubro Infotech (L&T): Software Engineer

Apr 2015-Jul 2017 · Pune, India

- Assisted in development and maintenance of enterprise applications.
- Worked with Python for scripting tasks and building/supporting REST APIs.
- Contributed to testing, debugging, and deployment processes.
- Gained strong exposure to Agile workflows and SDLC practices.

Education

- B.E. Computer Science Engineering-PESCOE, Aurangabad (First Class with Distinction, 2010-2014)
