

Parmeet Singh Granthi

+91 7420004161 | parmeet.singh@parmeetsingh.com

Professional Summary

Data Scientist with a focus on developing enterprise-grade AI solutions that drive business value. Proven expertise in building predictive models and integrating them into client environments for optimal performance. Skilled in conducting proof-of-concept trials and advising clients on success criteria. Experienced in operationalizing AI implementations and training end users for effective adoption. Adept at solving complex data science challenges through end-to-end AI solutions, including data preparation and model management. Committed to delivering impactful results while ensuring ethical AI practices. Passionate about fostering collaboration across teams to achieve client goals. Dedicated to continuous improvement and professional growth within the data science field.

Core Skills

- AI Solutions: Predictive Modeling, AI Algorithms, Data Integration, Operationalization
- Data Science: Problem Framing, Data Preparation, Model Building, Visualization
- Collaboration: Client Engagement, Cross-Functional Teams, Success Criteria, Training
- Technologies: Python, MLOps, FastAPI, Docker
- Methodologies: Agile, SDLC, Statistical Analysis, Machine Learning

Experience

Kiran Engineering Works: Data Scientist

Sep 2017-Present · Chhatrapati Sambhajinagar, India (formerly Aurangabad)

- Developed end-to-end AI solutions, enhancing operational efficiency by 40%.
- Built predictive models that reduced downtime by 30% through proactive maintenance.
- Integrated AI algorithms into client systems, improving data-driven decision-making by 50%.
- Conducted training sessions for end users, increasing adoption rates by 60%.
- Collaborated with cross-functional teams to deliver impactful AI solutions on time.
- Automated workflows using machine learning, saving over 100 hours monthly.
- Provided expert guidance on data science best practices, enhancing client satisfaction.

Larsen & Toubro Infotech (L&T): Software Engineer

Apr 2015-Jul 2017 · Pune, India

- Assisted in development and maintenance of enterprise applications.
- Worked with Python for scripting tasks and building/supporting REST APIs.
- Contributed to testing, debugging, and deployment processes.
- Gained strong exposure to Agile workflows and SDLC practices.

Projects

AI Model Development

- Developed predictive models that improved client decision-making efficiency by 45%.
- Conducted proof-of-concept trials that demonstrated significant ROI for clients.

Operational AI Implementation

- Led AI operationalization projects that enhanced system uptime to 99.5%.
- Trained users on AI tools, resulting in a 70% increase in user engagement.

Client Success Initiatives

- Collaborated with sales and account management to align AI solutions with client needs.
- Provided ongoing support and training, boosting client satisfaction scores by 30%.

Education

- B.E. Computer Science Engineering-PESCOE, Aurangabad (First Class with Distinction, 2010-2014)
