

Parmeet Singh Granthi

+91 7420004161 | parmeet.singh@parmeetsingh.com

Professional Summary

Full-stack Software Engineer with over 5 years of experience in developing scalable systems and driving impactful product initiatives. Proficient in collaborating with cross-functional teams to define user experiences and enhance product direction. Skilled in building high-quality, reliable software solutions using Python, React, and cloud technologies. Committed to continuous improvement of codebases and engineering practices while ensuring ethical standards in technology. Passionate about leveraging innovative solutions to solve complex challenges in the cryptocurrency space. Eager to contribute to a mission-driven team focused on enabling seamless crypto usage for all.

Core Skills

- Full-Stack Development: Python, React, Flask, GraphQL, Docker, PostgreSQL
 - Software Engineering: System Design, Algorithms, Data Structures, Testing, CI/CD
 - Cloud Technologies: GCP, AWS, Terraform, MLOps, Infrastructure as Code
 - Collaboration: Agile Methodologies, Cross-Functional Teams, Communication
 - Performance Optimization: Scalability, Reliability, Code Quality, Monitoring
-

Experience

Kiran Engineering Works - AI & Software Engineer

Sep 2017 - Present · Chhatrapati Sambhajnagar, India (formerly Aurangabad)

- Developed ML dashboards for real-time monitoring, enhancing operational efficiency by 40%.
- Implemented RAG assistants, cutting lookup times by 70% and improving internal workflows.
- Created multi-agent LLM systems for compliance, saving over 50 hours monthly in manual tasks.
- Automated finance workflows, increasing processing speed by 30% through intelligent LLM integration.
- Trained predictive models, achieving a 30% reduction in equipment downtime and maintenance costs.
- Deployed ML pipelines with logging, boosting system uptime to 99.5% and reliability.
- Integrated LLM-based solutions into CRM, enhancing response times by 60% and user satisfaction.

LTI - Larsen & Toubro Infotech Ltd. - Software Engineer

Apr 2015 - Jul 2017 · Pune, India

- Developed and maintained enterprise applications, improving user engagement by 25%.
 - Utilized Python for scripting and REST API development, enhancing system integration.
 - Contributed to Agile processes, increasing team efficiency and project delivery speed.
-

Education

- B.E. Computer Science Engineering - PESCOE, Aurangabad (First Class with Distinction, 2010-2014)
